MonaLisa Touch

MonaLisa Touch is an FDA-approved treatment that uses laser energy to treat atrophic vaginitis, vaginal dryness, vaginal burning, painful intercourse, and urinary incontinence. As many as 50% of post-menopausal women suffer from these changes in their gynecological health, but now there's something that can be done about it!

Common Question Answered:

Why do I have to leave a urine sample when I know I have a UTI?

You've had them a *million* times....so, why can't the office just call in a prescription for you? Why are you being asked to come to the office to leave a urine sample when you know EXACTLY what they feel like?

Immune System Booster

It's more important than ever to strengthen your immune system!

The administration of vitamins, minerals, antioxidants, fat burners, and/or amino acids directly into the bloodstream help detoxify and correct underlying nutritional deficiencies.

Glutathione, the "MASTER" antioxidant is just one of the many products available for you!

Call Nicole Deacon, RN at 602.595.6271 for more information and scheduling!

TeleMed Visits

While most obstetric and gynecological visits do require a physical examination, the following appointment types are eligible for TeleMedicine at this time:

- Reviewing test results
- Follow up visits
- Hormone consultations
- Contraceptive counseling
- Pre-Conception counseling
- Post-operative checks
- Routine post-partum visits
- Post-partum depression
- Infertility consultations
